

IKEA is recalling white frosted GLIVARP extendable dining table

IKEA urges all customers that purchased the white frosted GLIVARP extendable dining table (article number: 10334705, 90334706) to stop using the recalled product and contact IKEA for remedy.

IKEA has received customer reports of the extension piece in the GLIVARP extendable dining table detaching from the rails and falling.

(As shown in the picture on the left, the extendable glass leaf may fall, and result in injuries due to the heavy weight.)

IKEA urges all customers who own a white frosted GLIVARP table to return the product to IKEA for a full refund or a similar product. IKEA does not require any proof of purchase.

IKEA takes product safety very seriously. All our products are tested and comply with applicable standards and legislation. In spite of this we have received reports that the extension part in the GLIVARP table has fallen.

We apologize for any inconvenience this may cause.

For more information, please visit www.IKEA.cn or contact IKEA at 400-800-2345.
