## English

### Self-adhesive mirror

Note: The surface can be damaged when removing the mirror from the wall.

The mirror fix to most surfaces which are even. Fixing mirror to ceilings and sloping ceilings is not recommended.

The mirror can be used in bathrooms, but should not be fixed where they come into direct contact with water, since water may damage the adhesive.

On porous surfaces like plywood and fibreboard, adhesion can be improved if the surface is first coated with high-gloss lacquer.

Wipe the wall surface so that it is clean and dry before fixing the mirror.

Wipe the back of the mirror so that it is clean and dry before sticking the tape on it.

Position and fix the tape according to the illustration in the assembly instruction.

Remember to position and fix the mirror correctly from the start since the tape cannot be reused.

The mirror may break when removing it from the wall. Be careful.

## Español

### Espejo adhesivo

Nota: Al retirar el espejo se puede dañar la superficie de la pared.

El espejo se puede fijar a la mayoría de las superficies lisas.

Se desaconseja fijar el espejo al techo, incluidos los techos abuhardillados.

El espejo se puede utilizar en el baño, pero no debe colocarse donde pueda estar en contacto directo con el agua, puesto que podría dañar la parte adhesiva.

Se aconseja barnizar las superficies porosas, como los tableros de fibras o el contrachapado, para aumentar la adherencia del espejo.

Limpia y seca la superficie antes de fijar el espejo. Limpia y seca el reverso del espejo antes de pegar la cinta adhesiva.

Coloca y fija la cinta según la ilustración de las instrucciones de montaje.

Asegúrate de colocar bien el espejo desde el principio, porque la cinta adhesiva no se puede reutilizar una vez pegada.

El espejo puede romperse al retirarlo de la pared. Ten cuidado.

## Portugues

### Espelho autoadesivo

Atenção: A superfície pode danificar-se ao remover o espelho da parede.

O espelho fixa-se à maioria das superfícies regulares.

Não se recomenda a fixação destes espelhos em tetos e tetos inclinados.

O espelho pode ser usado em casas de banho, mas não deve ser fixado onde entre em contacto direto com água, uma vez que a água pode danificar o adesivo.

Em superfícies porosas como contraplacado e MDF, pode reforçar-se a fixação com a aplicação de uma camada de verniz brilhante.

Limpe a superfície da parede para que fique sem pó e seca antes de fixar o espelho.

Limpe a parte de trás do espelho para que fique sem pó e seco antes de aplicar o autocolante.

Posicione e fixe a fita de acordo com a ilustração nas instruções de montagem.

Tenha atenção ao colocar o espelho, pois a fita não pode ser reutilizada.

O espelho pode quebrar-se ao removê-la da parede, por isso, tenha cuidado.

## Bahasa Indonesia

**Cermin dengan perekat**

Catatan: Permukaan bisa rusak saat melepas cermin dari dinding.

Cermin dipasang pada sebagian besar permukaan yang rata.

Memasang cermin ke plafon rata dan miring tidak disarankan.

Cermin dapat digunakan di kamar mandi, tetapi tidak boleh dipasang di tempat yang bersentuhan langsung dengan air, karena air dapat merusak perekat.

Pada permukaan berpori seperti kayu lapis dan papan serat, daya rekat dapat ditingkatkan jika permukaan pertama kali dilapisi dengan pernis mengkilap.

Lap permukaan dinding agar bersih dan kering sebelum memasang cermin.

Lap bagian belakang cermin agar bersih dan kering sebelum menempelkan selotip di atasnya.

Posisikan dan perbaiki selotip sesuai dengan ilustrasi dalam petunjuk perakitan.

Ingatlah untuk memposisikan dan memasang cermin dengan benar sejak awal karena perekat tidak dapat digunakan kembali.

Cermin dapat pecah saat dilepas dari dinding. Hati-hati.

## Bahasa Malaysia

**Cermin lekat sendiri**

Nota: Permukaan boleh rosak apabila cermin ditanggalkan dari dinding.

Cermin boleh dipasang pada kebanyakan permukaan yang rata.

Memasang cermin pada siling dan siling condong adalah tidak disyorkan.

Cermin boleh digunakan di bilik mandi, tetapi seharusnya tidak dipasang di mana ia boleh terkena air secara langsung, kerana air boleh merosakkan pelekat.

Pada permukaan berliang seperti papan lapis dan papan gentian, lekatan dapat ditingkatkan jika permukaan terdahulu disalut dengan lakuer berkilat.

Lap permukaan dinding agar ia bersih dan kering sebelum cermin dipasang.

Lap belakang cermin agar ia bersih dan kering sebelum pita dilekatkan di atasnya.

Tempatkan dan lekatkan pita mengikut ilustrasi dalam arahan pemasangan.

Ingat untuk menempatkan dan pasangkan cermin dengan betul dari mula kerana pita tidak boleh digunakan semula.

Cermin boleh pecah apabila ditanggalkan dari dinding. Sila berhati-hati.

## عربي

**مرآة لاصقة**

ملاحظة: قد يتلف سطح الحائط عند نزع المرآة عنه.

المرآة قابلة للالتصاق على معظم الأسطح المستوية.

لا ننصح بتثبيت المرآة على الأسقف أو الأسقف المائلة.

يمكن استخدام المرآة في الحمامات، ولكن لا ينبغي تركيبها في مكان يعرّضها إلى الماء مباشرة، لأن الماء قد يؤدي إلى تلف المادة اللاصقة.

يمكن تحسين التصاق المرآة على الأسطح المسامية مثل الخشب الرقائقي (الأبلاكاج) والخشب المضغوط إذا تم طلاء السطح أولاً بورنيش لامع.

امسحي سطح الحائط ليكون نظيفاً وجافاً قبل تثبيت المرآة.

امسحي الجزء الخلفي من المرآة ليكون نظيفاً وجافاً قبل لصق الشريط عليها.

ضعي الشريط وثّيته وفق الصور الموضحة في التعليمات.

تذكّري بوضع وتثبيت المرآة بشكل صحيح من البداية لأن الشريط غير قابل لإعادة الاستخدام.

قد تنكسر المرآة عند إزالتها من الحائط. توخي الحذر.

## ไทย

**แผ่นกระจกติดกาาได้**

หมายเหตุ: เมื่อถึงแผ่นกระจกออก ผนังบริเวณที่ติดแผ่นกระจกอาจเป็นรอยได้

สามารถติดแผ่นกระจกลงบนพื้นผิวได้เกือบทุกแบบที่เป็นผิวเรียบ

ไม่แนะนำให้ติดกระจกบนเพดานหรือพื้นผิวที่ลาดเอียง

ติดในห้องน้ำได้ แต่ไม่ควรติดบริเวณที่ต้องสัมผัสน้ำโดยตรง เพราะน้ำอาจทำให้กาาเสื่อมคุณภาพ

พื้นผิวที่เป็นรูพรุน เช่น ไม้อัดหรือโฟเบอร์บอร์ด ให้เคลือบปิดผิวด้วยเล็กเกอร์ชนิดไฮกลอส เพื่อช่วยให้กาาติดแน่นดียิ่งขึ้น

เช็ดผนังบริเวณที่จะติดแผ่นกระจกให้สะอาดและแห้งสนิทก่อนติด

เช็ดด้านหลังแผ่นกระจกให้สะอาดและแห้งสนิท แล้วจึงนำกาาสองหน้ามาติดลงไป

กะตำแหน่งและติดกระจกให้ถูกต้องตามคู่มือการติดตั้ง

ควรกะตำแหน่งให้ถูกต้องก่อนติด เพราะเทปกาวไม่สามารถนำกลับมาใช้ซ้ำได้

โปรดระวัง แผ่นกระจกอาจแตกได้เมื่อดึงออกจากผนัง
