QUICK GUIDE

ON/OFF button

Timer (30 minutes)

Dimmer

Preset mode for recommended light colour and brightness during daytime.

Preset mode for recommended light colour and brightness during night-time.

Preset mode for recommended light colour and brightness for backlight. The backlight raises the ambient light in a room and reduces the strain on your eyes.

Preset mode for recommended light colour and brightness for night light.

User manual

1. To turn on the work lamp and start to use a preset mode, you can press the desired button directly, without using the ON/OFF button. However, to turn off the work lamp manually, you must press the ON/OFF button.
2. To change the brightness when using a preset mode, simply drag your finger over the dimmer to the right or left (does not apply for night light mode).
3. You can also press the ON/OFF button to turn the work lamp on and then use the dimmer to adjust the brightness.
4. The work lamp has a memory function, which means that light colour and brightness are the same the next time you turn it on.
5. If you want to set a 30-minute timer without needing to keep an eye on a clock you can press the timer button. It will then slowly flash three times to indicate that the countdown has started or ended.
6. If you want the work lamp to automatically turn off when the night light mode is active, press the timer button and it will turn off in 30 minutes.

开关键

计时开关（30分钟）

滑动调光

灯光亮度和色温推荐在白天使用的预设模式。

灯光亮度和色温推荐在夜晚使用的预设模式

灯光亮度和色温推荐作为背光灯使用时的预设模式。使用背光灯可提高周围环境光线，减轻眼部疲劳。

光亮度和色温推荐作为夜光灯使用时的预设模式。

用户手册

1. 要打开工作灯并开始使用预设模式，你可以直接按下需要的按钮，而不必使用“开”/“关”按钮。但是，要手动关闭工作灯，则必须按“开”/“关”按钮。
2. 在使用预设模式时，如果要改变亮度，只需用手指在调光器上向右或向左拖动即可（不适用于夜灯模式）。
3. 也可以按“开”/“关”按钮打开工作灯，然后使用调光器调节亮度。
4. 此工作灯具有记忆功能，在下次开启后色温和亮度会保持不变。
5. 如果你想设置30分钟的工作时间，而不想关注时钟，可以按计时器按钮。按下后指示灯会缓慢闪烁三下，表示倒计时已开始或结束。
6. 如果你希望工作灯在夜灯模式激活的情况下自动关闭，请按定时器按钮，工作灯会在30分钟后关闭。
